ABDULLAH ABU RIALA

Software Engineer

Bethlehem, Palestine | aburialaabdullah@gmail.com | aburiala.vercel.app | LinkedIn | GitHub

SUMMARY

Software Engineer with a B.S. from Bethlehem University who builds and ships full-stack products. Most recently delivered a live bilingual (Arabic/English) QR menu and website for a paying restaurant client, owning every step from requirements to deployment and owner training. Hands-on with Java/Spring Boot, PHP/Laravel, React/Next.js and Flutter, and uses AI-assisted development to deliver faster.

EXPERIENCE

Freelance Full-Stack Developer — Bunduq Restaurant & Cafe, Bethlehem · bunduq.ps *Oct 2026 – Nov 2026*

- Delivered a live bilingual (Arabic RTL / English) QR menu and website for a paying client, end to end.
- Built a static Next.js + TypeScript site on Cloudflare Pages with a Sanity CMS dashboard, so the owner updates 117 items, prices and photos himself; each publish goes live in about a minute.
- Set up CI with GitHub Actions (secret scanning, type checks, linting, Vitest unit tests) and strict security headers, keeping running costs to the domain only (~$39/year).

Full Stack Developer Intern — Element Media · Code *Jun 2024 – Sep 2024*

- Built and shipped a full-stack e-commerce app with Laravel, MySQL and Blade: catalog, checkout, order tracking.
- Implemented secure authentication and authorization to protect user accounts and restrict admin-only actions.
- Worked within an Agile team, participating in sprint planning and code reviews to deliver features on schedule.

PROJECTS

AuraStride — AI Navigation App for the Visually Impaired (Graduation Project) · Code

- Team project: a Flutter app that guides visually impaired students around campus with voice directions.
- Built the object detection: on-device YOLOv5 (TensorFlow Lite) on the live camera, announcing obstacles by voice.
- Built the campus navigation: GPS, Google Maps and step-by-step voice directions, controlled by speech commands.
- Field-tested the app in real-world conditions and tested and debugged the detection and navigation code.

Palestine Job Finder — Automated Job Search & Email Reports · Code

- Python automation that gathers local IT jobs (Jobs.ps, Foras) and remote jobs (JSearch API) into ranked email reports.
- Keyword-based scoring (English and Arabic) rates each job 0–100 and filters out expired, senior and US-only roles.
- Runs on GitHub Actions with deduplication, fault-tolerant sources and API keys stored in GitHub Secrets.

Social Media Platform (Microservices) · Code

- Team of 3 (Microservices course): a social platform with secure authentication, real-time messaging and notifications.
- Backend: Java, Spring Boot, JWT, OAuth2, SSL. Frontend: React and TypeScript.
- Refactored the application into a microservices architecture and designed the UI in Figma.

TECHNICAL SKILLS

Programming: Java, PHP, Python, Dart, TypeScript, JavaScript
Backend: Spring Boot, Laravel, REST APIs, JWT, OAuth2, MySQL, Firebase
Frontend & Mobile: React, Next.js, HTML/CSS, Tailwind CSS, Sanity CMS, Flutter
Tools & Practices: Git, GitHub Actions (CI/CD), Docker, Cloudflare Pages, Vitest, Agile/Scrum, Figma
AI Tools: AI-assisted development (Claude Code), Prompt Engineering
Languages: Arabic (Native), English (Professional Working Proficiency)

EDUCATION

B.S. in Software Engineering — Bethlehem University *Sep 2021 – Dec 2025*
Coursework: Data Structures & Algorithms, OOP, Databases, Software Testing, Web Development, SOA, Design Patterns.

CERTIFICATIONS & TRAINING

- Google Prompting Essentials Specialization — Google Career Certificates, Coursera (2026) — View certificate
- AWS Academy Cloud Foundations — AWS Academy (2024) — View badge
- Frontend Development Training (React, Flutter, Figma) — Udemy (2023–2024)

OTHER EXPERIENCE & VOLUNTEERING

- Restaurant work (part-time), currently Head Waiter at Bunduq Restaurant & Cafe (2020 – Present).
- IEEE BU Student Branch — Organized coding workshops, technical events, and hackathons (Nov 2023 – May 2025).
- Ghirass Cultural Center — Taught English and public speaking to children (May 2023 – Jun 2023).
